EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 2, line 1, "asparatate" has been replaced by ---aspartate---, and on line 21, "temperatire" has been replaced by---temperature--.

The following is an examiner's statement of reasons for allowance:

Claims 1-4 are allowed over the prior art because none of the prior art documents discloses or suggests the use of a compound selected from the group consisting of ethylene carbonate, propylene carbonate and epsilon-caprolactone to react with the resultant product from the claimed step A to form the product of the claimed formula.

The closest prior art, Wicks et al or Zwiener et al, disclose the use of a hydroxyl group containing polylactones or hydroxyl group containing polycarbonates due to different mechanisms and form different products.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance.".
